DISCLOSURE

It is the policy of Ciné-Med to ensure balance, independence, objectivity, and scientific rigor in all its educational programs. Faculty, course directors, and planners participating in an accredited program are required to disclose to the program audience any real or apparent conflict(s) of interest. This pertains to relevant financial relationships within the past 12 months with a commercial interest and the opportunity to affect program content relevant to products or services of that commercial interest. The intent of this policy is to allow for a determination to be made as to whether that relationship may constitute a conflict of interest that must be resolved. Information that a faculty member, course director, or planner (including spouse/partner) has no relevant financial relationships will be provided to the learners. In addition, all faculty members are expected to disclose discussion of any off-label or investigational uses of products.
