

CONTENTS

VOLUME I

PART I *NASAL ANATOMY AND PHENOMENOLOGY*

- 1** **Static Anatomy and Its Impact on Aesthetics** **3**
 - Toward Refinement* **4**
 - Surface Planes and Light Reflexes* **5**
 - Structural Layers of the Nose* **9**
 - Effect of Dorsal Height on Nasal Length* **10**
 - Anatomic Nasal Layers* **12**
 - Bony and Upper Cartilaginous Vaults* **15**
 - Alar Cartilages* **29**
 - Nasal Base: Upper Lip Complex* **45**

- 2** **Dynamic Anatomy and Structural Relationships** **53**
 - Why Rhinoplasty Is Difficult* **55**
 - The Dynamic Nose* **56**
 - Two False Assumptions About the Reduction Model* **56**
 - Nasal Equilibrium* **63**
 - Specific Interrelationships* **66**
 - Dynamism in Practice: Making Noses Longer or Shorter* **92**

- 3** **Involving the Right Brain in Rhinoplasty Diagnosis
and Planning** **107**
 - History of Right-Brain Theory and Its Application to Rhinoplasty* **108**
 - Experiencing Right-Brain Shift* **110**
 - Relating Right-Brain Observations to Rhinoplasty Strategy* **118**
 - How the Left Brain Deceives* **121**

- 4** The Anatomy of Function and How Rhinoplasty Affects the Airway 133
The Importance of the Airway Component to Cosmetic Rhinoplasty 134
Applied Anatomy: Fundamentals of Airway Correction in Practice 158
- 5** Four Critical Anatomic Variants and “The Secret of Everything” 187
Relevance of the Problem 188
Frontal View: Determining the Airway 191
Lateral View: Determining a Balanced, Straight Profile 208
A Matched Pair of Problems 232
Relevance to Clinical Practice 244

PART II ***RHINOPLASTY AS AN OPERATION***

- 6** Why Rhinoplasty Is Difficult 253
Rhinoplasty’s Hidden Anatomy 256
Why I Prefer Endonasal Rhinoplasty 265
Photography 268
- 7** Planning Rhinoplasty: Abstract Concepts and Aesthetics 279
Theoretical and Practical Aesthetics 280
The Reality of the Ideal in Facial Analysis 287
A Nose That Fits the Face 291
Practical Aesthetics and Parameters for Planning 292
Three Surface Parameters for Rhinoplasty Planning 300
- 8** Planning Rhinoplasty: Applied Concepts and Aesthetics 317
The Consultation 318
Specifics of the History 320
Details of the Interview 342
The Preoperative Examination 342
Cooperation and Rapport 347
Discussing and Agreeing on a Plan 348
Putting Yourself and the Patient on the Same Side 349
Helping the Patient Formulate a Practical Plan 349
The Male Aesthetic 359
Explaining the Surgical Plan 366
Showing Your Results in Other Patients 380

Computer Imaging 380
Explaining the Risks to Patient and Family 381
Patient Attitude and Behavior 381
Revisions 383
The Blue Sheet and a Written Surgical Plan 383
Closing an Unsuccessful Consultation 388

9 **Creating the Preoperative Plan** 391
A Template for Planning 392
Constructing a Formal Plan 414
The Preoperative Envelope 415

PART III CONCEPT AND TECHNIQUE IN PRIMARY RHINOPLASTY

10 **How to Learn Rhinoplasty** 421
Learning Surgical Judgment 422
How to Teach Yourself Rhinoplasty 424

11 **Intraoperative Feedback and Technique in Primary Rhinoplasty** 463
Rhinoplasty as a Concept 464
The Uniqueness of Rhinoplasty as an Operation 465
Specifics of the Operation 466
The Operation Itself 478
Incisions and Planning 478
Steps in the Operative Sequence 479

12 **Adding Cartilage to the Nose: Why Grafts Are Necessary** 567
The Logic of Grafting 568
Selecting and Harvesting Donor Sites in Primary Cases 568
Prioritizing the Specimens 622
Constructing Specific Grafts in Primary Rhinoplasty 624

13 **The Uncomplicated Postoperative Course** 735
Value of the Postoperative Period to the Surgeon 736
Early Postoperative Instructions and Management 737
The First Postoperative Visit 737
Typical Postoperative Changes 738
Typical Early Postoperative Changes 744

14	Problems in the Postoperative Course	751
	<i>Iatrogenic Airway Obstruction</i>	752
	<i>Skeletal Problems</i>	758
	<i>Soft Tissue Problems</i>	762
	<i>Graft Problems</i>	772
	<i>Septal Perforation</i>	804
	<i>Synechiae</i>	807
	<i>Septal Collapse</i>	808
	<i>Rhinitis</i>	809
	<i>Circulatory Problems</i>	810
	<i>Hemorrhage</i>	815
	<i>Infection</i>	816
	<i>Less Common Complications</i>	819
	<i>Unhappy Patients</i>	821

VOLUME II

PART IV PRIMARY RHINOPLASTY

15	Common Problems in Anatomy and Proportion	827
	<i>Introducing the Icons</i>	828
	<i>Dorsal Deformities</i>	828
	<i>Middle Vault Problems</i>	877
	<i>Tip Problems</i>	892
	<i>Problems of Length and Balance</i>	927
	<i>Problems of Volume</i>	936
16	Exceptions to the Usual	951
	<i>The Traumatized Nose</i>	952
	<i>Rhinoplasty in Men</i>	974
	<i>Ethnic Rhinoplasty</i>	991
	<i>Older Patients</i>	1035
	<i>Thin Skin</i>	1052
	<i>Thick Skin</i>	1059
	<i>Rhinophyma</i>	1067

PART V SECONDARY RHINOPLASTY

- 17** Theory, Planning, and Technique 1087
 Phenomenology and Diagnosis in Secondary Rhinoplasty 1088
 Secondary Rhinoplasty Compared With Primary Rhinoplasty 1096
 Applicable Techniques 1102
 Donor Site Depletion 1185
- 18** Regional Deformities 1189
 Dorsal Deformities 1191
 Middle Vault Problems 1207
 Nasal Base Problems 1220
- 19** Generalized Deformities 1237
 Supratip Deformity 1239
 Thick Skin and Thin Skin 1260
 Septal Collapse 1270
 Problems of Length and Balance 1292
 Reconstruction in Patients With Prostheses 1304
 Cleft Lip Nasal Deformity 1316
 Deformities Resulting From Previous Open Rhinoplasty 1338
 Complex Deformities 1364
- 20** Unhappy Patients and Those With Body Dysmorphic Disorder 1401
 The Problem for Surgeons 1403
 The Link to Relational Trauma 1427
 Trauma, Core Issues, Addictions, and Relational Problems 1427
 Relational Addiction 1428
 The Physician Component 1429
 And So the Play Begins 1430
 Evidence From a Patient's Story 1435
 Narcissism in the Classical Sense: A Factor in Body Dysmorphic Disorder 1442
 The Incidence of Body Dysmorphic Disorder in Private Practice 1444
 A Survey of 1000 Consecutive Rhinoplasty Patients 1446
 Putting It All Together 1447
 Who, Then, Are the Surgical Candidates? 1448

Credits C-1

Index I-1

DVD Contents

VOLUME I

Primary Rhinoplasty With Lateral Crural Relocation

Rib Harvesting and Perichondrial/Cartilage Strip

Rib Graft Harvesting, Perichondrial/Cartilage Strip, and Laminate

VOLUME II

Secondary Rhinoplasty With Composite Grafts and Maxillary Augmentation

Secondary Rhinoplasty With Ear Cartilage
