## PART I

### Basic Considerations

- 1 Biomechanics of Scoliosis Deformities 3  
*Thomas R. Haber, MD, Bryan Andrew Castro, MD, MS, Cathy Lee, MD,  
and Andrew A. Merola, MD*
- 2 Biomechanics of Anterior Column Support 27  
*David W. Polly, Jr., MD, William R. Klemme, MD, Timothy R. Kuklo, MD,  
Philip J. Belmont, Jr., MD, and Bryan W. Cunningham, MSc*
- 3 Anterior Column Support: Mesh Versus Graft 37  
*Thomas G. Lowe, MD*
- 4 The Lenke Treatment-Directed Classification System for Adolescent  
Idiopathic Scoliosis 51  
*Lawrence G. Lenke, MD, Randal R. Betz, MD, and Juergen Harms, MD*
- 5 Radiographic Scoring System for Scoliosis 65  
*Randal R. Betz, MD, and Lawrence G. Lenke, MD*
- 6 Spinal Cord Monitoring 73  
*Anne M. Padberg, MS, CCC-A*
- 7 Pulmonary Considerations 103  
*Ravishankar Vedantam, MD, and Lawrence G. Lenke, MD*
- 8 Nutritional Considerations 113  
*Robert W. Molinari, MD*

- 
- 9 Preparing the Patient and Family: A Nursing Perspective 123  
*Kathy Blanke, RN, Christine Baldus, RN, BSN, and Joetta Whorton, RN*
- 10 Performance Measures in Scoliosis Surgery 135  
*Jack R. Engsborg, PhD, and Lawrence G. Lenke, MD*
- 11 Complications of Anterior Spine Surgery 151  
*Michael F. O'Brien, MD, and Arthur F. Jones, MD, MBA*
- 12 Complications in Adolescent Idiopathic Scoliosis 177  
*Rohinton Balsara, MD, David H. Clements III, MD, and Randal R. Betz, MD*
- 13 Complications in Adult Patients With Idiopathic Scoliosis 185  
*S. Tim Yoon, MD, PhD, and Howard S. An, MD*
- 14 Patient Health Outcomes 197  
*Andrew A. Merola, MD, Steven Enguidanos, MD, Thomas R. Haber, MD, Bryan Andrew Castro, MD, MS, Tae Shin, MD, and John Gorup, MD*
- 

## PART II

# Surgical Approaches

### ANTERIOR APPROACH

- 15 Single Thoracotomy 209  
*Yongjung J. Kim, MD, and Lawrence G. Lenke, MD*
- 16 Double Anterior Thoracotomy 225  
*Rohinton Balsara, MD, and Randal R. Betz, MD*
- 17 Thoracolumbar and Lumbar Retroperitoneal Anterior Approach 233  
*Daniel E. Gelb, MD*
- 18 Anterior Kyphoscoliosis Surgery: Release and Strut Grafts 241  
*Serena S. Hu, MD, Arash Emami, MD, and John M. Rhee, MD*

### POSTERIOR APPROACH

- 19 Limits of Anterior Scoliosis Surgery: When Is the Posterior Approach the Better Option? 259  
*Keith H. Bridwell, MD*

- 
- 20 Anterior Hemivertebra Resection Through a Posterior Approach 271  
*Michael Ruf, MD, and Juergen Harms, MD*
- 21 Anterior Decancellation Procedures for Scoliosis With Sagittal Imbalance 287  
*Keith H. Bridwell, MD*
- 22 Vertebral Column Resection for Management of Fixed Coronal Decomensation 303  
*Sigurd Berven, MD, and David S. Bradford, MD*
- 

## PART III

## Operative Procedures

- 23 Overview and Indications for Anterior Instrumentation 319  
*Randal R. Betz, MD, Donald P.K. Chan, MD, and Lawrence G. Lenke, MD*
- 24 Discectomy and Fusion 329  
*Yongjung J. Kim, MD, and Lawrence G. Lenke, MD*

## INSTRUMENTATION SYSTEMS AND TECHNIQUES

- 25 The Zielke Threaded Rod: Anterior Applications 339  
*Johannes P. Giehl, MD*
- 26 The Zielke Threaded Rod: Thoracolumbar/Lumbar Applications 357  
*Johannes P. Giehl, MD*
- 27 MOSS-Miami Single Solid Rod 375  
*Randal R. Betz, MD*
- 28 TSRH Single Solid Rod 381  
*Charles E. Johnston II, MD*
- 29 Anterior Single-Rod CD Horizon Instrumentation for Scoliosis 399  
*Lawrence G. Lenke, MD, and Fred A. Sweet, MD*
- 30 Combined Threaded Solid-Rod (Halm-Zielke) Instrumentation 411  
*Henry F.H. Halm, MD, PhD*

- 
- 31 Kaneda Dual Solid-Rod System (KASS) 427  
*Kiyoshi Kaneda, MD, PhD, and Yasuhiro Shono, MD, PhD*
- 32 KASS Treatment of Single Curve Scoliosis: 214 Cases From  
Ten Surgeons 455  
*Robert W. Gaines, Jr., MD*
- 33 Anterior Treatment of Scoliosis Using the CD Horizon Legacy  
Dual-Rod Spinal System 485  
*Lawrence G. Lenke, MD*

#### MINIMALLY INVASIVE SURGERY

- 34 Thoracoscopic Anterior Release and Fusion 497  
*Peter O. Newton, MD*
- 35 Thoracoscopic Insertion of Moss Instrumentation 513  
*David H. Clements III, MD, Randal R. Betz, MD, and Rohinton Balsara, MD*
- 36 Thoracoscopic Insertion of CD Eclipse Instrumentation 521  
*Ronald G. Blackman, MD, and Eduardo R. Luque, MD*
- 37 Thoracolumbar and Lumbar Minimally Invasive Instrumented  
Techniques 543  
*George D. Picetti III, MD, and Hans-Ulrich Bueff, MD*

---

#### PART IV

### Other Pathologic Conditions

- 38 Surgery for Infantile and Juvenile Scoliosis, Including Thoracoscopic  
Indications 559  
*Alvin H. Crawford, MD, Eric J. Wall, MD, Moises Kaweblum, MD,  
and Randall K. Wolf, MD*
- 39 Anterior Scoliosis Surgery in Cerebral Palsy 587  
*John P. Lubicky, MD*
- 40 Congenital Scoliosis 603  
*Reinhard D. Zeller, MD*

- 
- 41 Spinal Muscular Atrophy 611  
*Vishal Sarwahi, MD, and John F. Sarwark, MD*
- 42 Marfan Syndrome 627  
*Paul D. Sponseller, MD, and Gürkan Erkula, MD*
- 43 Neurofibromatosis 637  
*Keith R. Gabriel, MD*
- 44 Myelomeningocele 651  
*Douglas A. Linville, MD, and Lawrence G. Lenke, MD*
- 45 Halo Traction Following Anterior Release and Fusion for Severe Scoliosis 667  
*Lawrence G. Lenke, MD, and Anthony S. Rinella, MD*
- 46 Adult Degenerative Lumbar Scoliosis 673  
*Lynn J. Letko, MD, and Juergen Harms, MD*
- 

## PART V

## New Frontiers

- 47 Anterior Vertebral Osteotomies to Correct Lumbar Scoliosis Without Fusion 693  
*William P. Didelot, MD, Thomas F. Kling, Jr., MD, and Richard E. Lindseth, MD*
- 48 The Future of Anterior Scoliosis Surgery 707  
*Lawrence G. Lenke, MD*
